

The best medicine for growth is integration with **SAP S/4HANA**

Founded in 2013, ADCAN Pharma was created to support the United Arab Emirates' long-term strategic plan to invest in and build world-class healthcare infrastructure. As a major local pharmaceutical manufacturer of high-quality, affordable pharmaceuticals targeting key therapeutic areas, the company set out to strengthen vital manufacturing capabilities and selected SAP S/4HANA to integrate all departments, optimize processes and implement cost reducing measures. Now, the company is prepared to realize its huge potential and help the UAE's medical sector to develop into a cutting-edge global healthcare system.

"Thanks to our partnership with SAP S/4HANA & Inflexion ADCAN Pharma is positioned as a Pharma Industry leader and the first company to produce oncology products in the UAE."

Zuhdi Sawalhi, CEO, Adcan Pharma

Before: Challenges and Opportunities

- Search for a tool to integrate all the company's departments
- Realization that a more supportive ERP was required
- Desire to obtain more precise data and better data analysis

Why SAP® S/4HANA and INFLEXION

- Solution includes tools for more efficient processes, resource and inventory management
- Solution offers more precise data and analytical reports
- Inflexion provided clear advice and demonstrates high level of responsiveness
- Inflexion treats its customers like partners

After: Value-Driven Results

- Optimized inventory with greater process efficiency
- Cost reduction and resource rationalization in all departments
- Enhanced data accuracy and analysis for better decision-making
- Greater confidence in the future and prepared to launch ambitious growth plans
- Full integration of departments with profit center

32,800 m2 in state-of-the-art pharmaceutical manufacturing facilities
