

Businesses experience 'cream of the crop' time saving processes thanks to **SAP Business ByDesign®**

Before: Challenges and Opportunities

- Orontes' previous system struggled with replicating data entries, leading to month-end gaps between sales and costs.
- Internal departments maintained their own Microsoft Excel spreadsheets, which were manually compared for accuracy.
- New software was required that would provide accurate reporting and introduce automation, eliminating time consuming processes.

Why SAP Business ByDesign and Inflexion

- SAP Business ByDesign was extremely cost effective and provided international standards, which inspired confidence for management.
- Inflexion provided excellent support during implementation and several customizations specific to Orontes' requirements.

After: Value-Driven Results

- Since implementation, accurate reports are now received on time from all departments, resulting in faster decision-making.
- Visibility across the business has been enhanced thanks to the real-time operational overview.
- On the go access via the Cloud enables the sales team to create invoices and book orders in real time, increasing productivity.
- The invoicing cycle has now been simplified and a clear approval process implemented.

"SAP Business ByDesign has become a **critical partner for our success.**"

Mr. Roger Younan – Finance Manager, Orontes Dairy Manufacturing LLC

25% more efficient invoicing processes

since implementation of SAP Business ByDesign
